

Privileg Lc 1021 SR

$$X_B - X_A = MS \quad Y_B - Y_A = X^2 + MR X^2 = \sqrt{X} \Rightarrow \underline{\underline{d}}$$

$$1/X * MR = \arccos \left(\frac{Y_B - Y_A}{\sqrt{X^2 + MR X^2}} \right) \Rightarrow \underline{\underline{0.11}}$$
