

DEFLEX

Welcome to Spectrum Super deflex

Meet sid the silly space invader ^{nummen}

HI THERE! utripa

- He's fed up of being shot at by laser bases so he's run off to join a new game.
- You will guide him through the nine terribly tortuous levels of superdeflex
- You must learn how to control his motion. You must guide him onto prizes for maximum points! You'll be working against the clock and against ferful hazards.

- Press ENTER AND I'LL TELL you how the controls work!

- You guide sid to success or failure using the keys N and M
- When you press N you get this / PLACED in front of sid

- For the M you get \
- This barriers deflect sid's direction of motion by a right angle as follows.
