Program PART 3

GOTO 500

① THE COLLECTOR'S RECORDING SYSTEM

Welcome to this program.

It will enable you to keep details of your collection.

You can keep:

- at least 600 records
- up to 9 fields (pieces of information) per record.

The computer will hold your records in the order you want.

When you are ready to continue, press any ~~key~~ letter

GOTO 535

② The program runs in two stages:

1. You say how you want your information organized so the computer knows how to set up its file. You do this once only
2. You create new records or access existing records.

When you are ready to continue, press any letter
