Welcome to Spectrum Super deflex

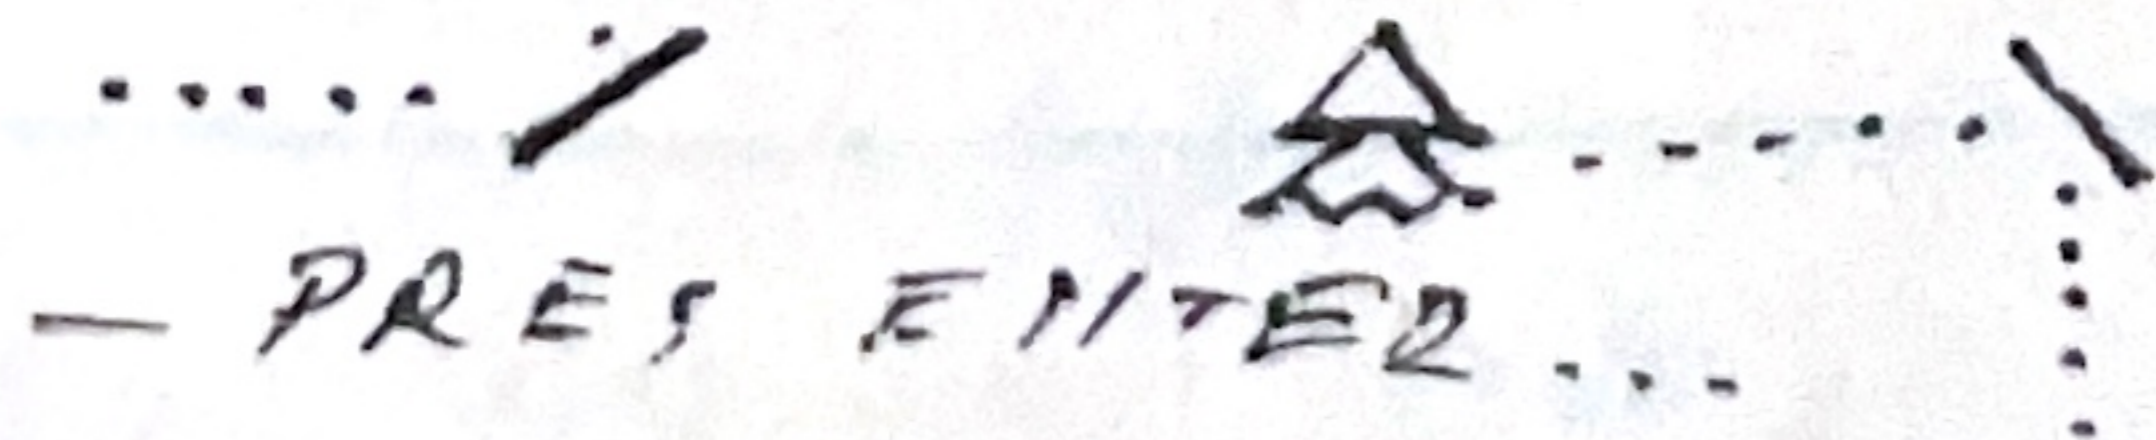

Meet Sid the silly ^{nummen} space invader

HI THERE! utripa

- He's fed up of being shot at by laser bases so he's run off to join a new game.
- You will guide him through the nine terribly tortuous levels of superdeflex
- You must learn how to control his motion. You must guide him onto prizes for maximum points! You'll be working against the clock and against ^{zapper, pop} fearful hazards.
- Press ENTER AND I'LL TELL you how the controls work!
- You guide Sid to success or failure using the keys N and M
- When you press N you get this / PLACED in front of Sid
- For the M you get \.
- This barriers deflect Sid's direction of motion by a right angle as follows.

you see?

- PRES ENTER...
