

DRAW

There are two crosswires (+ and X) which can be moved around the screen and are used to define various figures.

+ is moved by pressing the arrow keys 5, 6, 7 or 8

X by pressing SHIFT-5, 6, 7 or 8

The crosswires move one pixel at a time but you can change this by pressing I and entering the number of pixels the crosswires will jump at a time

The following figures are drawn by pressing the keys indicated:

L draws a line from + to X

C draws a circle with centre + passing through X

B draws a box with + and X at
