

Forward References.

As in the Pascal User Manual and Report (Section 11.C.1) procedures and functions may be referenced before they declared through use of the Reserved Word FORWARD e.g.

PROCEDURE a(y:t) ; FORWARD;	(procedure a declared to be)
PROCEDURE b(x:t);	(forward of this statement)
BEGIN	
....	
a(p);	(procedure a referenced.)
....	
END;	
PROCEDURE a;	(actual declaration of procedure a.)
BEGIN	
....	
b(q);	
....	
END;	

Note that the parameters and result type of the procedure a are declared along with FORWARD and are not repeated in the main declaration of the procedure. Remember, FORWARD is a Reserved Word.

1.17 PROGRAM.

Since files are not implemented there are no formal parameters of the program.
