Subject: Locating IS programs
 Date: Wed, 14 Oct 1998 09:58:28 +0800
 From: AIS Announcement <cbauder@cis.gsu.edu>
  To: ais@sphinx.gsu.edu

Dear AIS Member,

Gordon Davis and I have prepared a letter to Deans of business schools
about the Communications of AIS and the Journal of AIS. The purpose of the
letter is to introduce the journals and to assure the deans that they will
meet the standards of existing print journals. We ask that publishing in
JAIS and CAIS be considered in the promotion and tenure process as if the
journals appeared in print.

A copy of the letter has been posted to the journal Web sites for
downloading and inclusion in review packets for authors.

http://jais.aisnet.org/format.asp

We are writing to ask your help in identifying IS programs that are not in
business schools. If the Dean to which your program ultimately reports is
not in a business school, could you please send his or her name and address
to Colleen Bauder at AIS headquarters? cbauder@gsu.edu

If you know of other programs that we might not reach, please send that
information along as well.

Thank you very much.

Hank Lucas
